

Little Leigh Primary School

Our Ethos and Values

Educating hearts, educating minds.

We foster an environment where all can flourish and achieve. Our school is a safe, healthy, caring and friendly place to learn where children develop resilience and confidence and are included, respected and valued. We care and respect all and we are dedicated to ensuring the individual needs of all pupils are met in a safe, secure, engaging and stimulating environment.

Our mission statement, 'Educating hearts, educating minds' reminds us of the importance of friendship and belonging. We feel passionately that every child should be offered the opportunity to make the most of their talents and abilities. It is our aim that children leave us as successful, resilient learners and confident young people.

We work as a team to enable and develop learning, to help children become responsible citizens. We promote the vision of Create Learning Trust and our school is driven by a strong set of ASPIRE values that underpin who we are and what we do.

Active in our learning

Sure we can improve

Positive in our attitude

Imaginative in our thinking

Resilient when things go wrong

Effort - 100%

The School Aims

Children will:

- Feel happy, safe and respected and develop confidence
- Respect differences in others
- Aspire to reach their full potential
- Become independent thinkers and lifelong learners
- Value themselves and celebrate the achievements of all
- Take responsibility for themselves, the community and the wider world
